PRESS RELEASE

21st UITIC International Footwear Congress: Great success for the call for papers!

With 106 abstracts received, UITIC (International Union of Shoe Industry Technicians) and Assomac, organizers of the 21st UITIC International Footwear Congress, are proud to announce the success of their call for papers for the upcoming Congress.

From 19 to 22 September 2023, more than 300 participants, footwear brands as well as leaders of the industry, will meet in Milan and Vigevano to discuss a topic that is critical to the future of the footwear industry:

“Moving Towards Sustainability Through Innovation”

These abstracts have been sent by renowned experts from 21 countries such as Italy, France, Spain, Portugal, Germany, United Kingdom, Canada, Mexico, India, China and Hong Kong.

The extremely high technical and scientific quality of the spoken presentations and the visual posters received will allow to showcase innovative and operational solutions in all areas of Corporate Social Responsibility. This augurs very well for the event!

The next stage involves **Françoise Nicolas**, President of the Congress Scientific Committee, and its team, making the final selection of the oral and visual presentations.

Yves Morin, President of UITIC, and **Sergio Dulio**, President of the Congress Organizational Committee, would like to thank everyone involved for this successful reception of abstracts.

We look forward to seeing you for the 21st UITIC International Footwear Congress!
